

Startup Inspection Form - C13273 rev N

Reference Clarke Fire Inspection Procedures document C139459. Clarke Startup submission policy requires information to be submitted through the online form. (https://clarkefire.com/home/service/startup-information/start-up-inspection-(s.u.i.)-checklist)

	F - 199 - 144			Facility Manufacture		
Facility Identification Facility Name				Engine Identification Engine Model		
Facility Address				MFG S/N		
Site Contact				ESN		
Phone Number				Speed (RPM)		
Dump Identification						
Pump Identification Pump Manufacturer Pump Model				Pump Controller Identification		
Pump Serial Number		Pump Speed		Controller Manufacturer Controller Model		
Pump Pressure (PSI)		Pump Rating (GPM)		Controller Serial Number		
· ump · rossare (r or)		r amp rating (er m)		Solitation Containment		
Unit Mounted	i	Fuel System	Inspection	Electrical System Inspection	Cooling System Inspection	
☐ Mounting Hardware		☐ Flexible Fuel Con	nectors	☐ Controller Wired	☐ Cooling System Connections	
Base Grouted Properly Protected		Supply Connectio		Engine Harness Check	☐ Draincocks Closed ☐ Cooling Loop Solenoid	
☐ Properly Protected		Return Line Check	k Valve Direction	Batteries Serviced Engine Jacket Water Heater	Cooling Loop Solenoid Coolant Level	
		L Fuel lank		Eligille Jacket Water Fleater	Clean Y-Strainers	
Exhaust System Ins	pection				Radiator Requirements (if applicable)	
Exhaust Sized Properly		Service Drivesha	ift or Coupling	Air Supply Inspection		
Exhaust Support		Retorque Connec		Air Filter Installed	PLD System Inspection	
Exhaust Engine Conne Rain Protection			aft	Adequate Air Supply	☐ Discharge Sensing Line	
LI Rain Protection		Alignment Check			☐ Discharge Sensing Line ☐ Suction Sensing Line	
					Sensing Line Bleeding	
			Operati	on at Engine		
Initial Starting Procedure (Soft Start / Idle)				Cooling Loop Raw Water So	lenoid	
Manual Start				Raw Water Discharge		
			☐ Engine Gauges			
☐ Check for Leaks						
			Operation at	Pump Controller		
Manual Start at D	ump Controllor		Automotic Star	t at Ruma Cantrollar		
Manual Start at Po	ump Controller		Automatic Star	t at Pump Controller		
Manual Start at Pr	ump Controller		Automatic Star	t at Pump Controller Engine Full Load Inspe	ection	
Manual Start at Pe	ump Controller		Automatic Star	·	ection	
☐ Manual Start at Po	ump Controller	F		Engine Full Load Inspe	ection	
☐ Manual Start at Pr	ump Controller	!	Engine RPM at Full Load	Engine Full Load Inspe	ection	
Manual Start at Pr	ump Controller	1	Engine RPM at Full Load Engine Oil Pressure at Fu	Engine Full Load Inspe II Load ure at Full Load	ection	
☐ Manual Start at Pr	ump Controller	1	Engine RPM at Full Load Engine Oil Pressure at Fu Engine Coolant Temperat	Engine Full Load Inspe II Load ure at Full Load	ection	
☐ Manual Start at Pr	ump Controller	1	Engine RPM at Full Load Engine Oil Pressure at Fu Engine Coolant Temperat Engine Damper Tempera	Engine Full Load Inspo il Load ure at Full Load ure at Full Load	ection	
		1	Engine RPM at Full Load Engine Oil Pressure at Fu Engine Coolant Temperat Engine Damper Temperat Alarm V	Engine Full Load Inspection II Load ure at Full Load ure at Full Load		
☐ Low Engine Coola	ant Temp.	High Engine C	Engine RPM at Full Load Engine Oil Pressure at Fu Engine Coolant Temperat Engine Damper Temperat Alarm V Coolant Temp.	Engine Full Load Inspectifications Low Oil Pressure	☐ Over Speed Shutdown	
	ant Temp.	1	Engine RPM at Full Load Engine Oil Pressure at Fu Engine Coolant Temperat Engine Damper Temperat Alarm V Coolant Temp.	Engine Full Load Inspection II Load ure at Full Load ure at Full Load		
☐ Low Engine Coola	ant Temp.	High Engine C	Engine RPM at Full Load Engine Oil Pressure at Fu Engine Coolant Temperat Engine Damper Temperat Alarm V Coolant Temp.	Engine Full Load Inspectifications Low Oil Pressure	Over Speed Shutdown	
☐ Low Engine Coola	ant Temp.	High Engine C	Engine RPM at Full Load Engine Oil Pressure at Fu Engine Coolant Temperat Engine Damper Temperat Alarm V Coolant Temp. ter Temp	Engine Full Load Inspectifications Low Oil Pressure	☐ Over Speed Shutdown	
☐ Low Engine Coola☐ Low Raw Water F	ant Temp.	High Engine C	Engine RPM at Full Load Engine Oil Pressure at Fu Engine Coolant Temperat Engine Damper Temperat Alarm V Coolant Temp. ter Temp	Engine Full Load Inspection Il Load ure at Full Load ure at Full Load /erifications Low Oil Pressure Alternate ECM I Checks	Over Speed Shutdown ECM Warning & Failure	
Low Engine Coola Low Raw Water F	ant Temp. Ilow	High Engine C	Engine RPM at Full Load Engine Oil Pressure at Fu Engine Coolant Temperat Engine Damper Temperat Alarm V Coolant Temp. ter Temp	Engine Full Load Inspection Il Load ure at Full Load ure at Full Load /erifications Low Oil Pressure Alternate ECM	Over Speed Shutdown ECM Warning & Failure	
☐ Low Engine Coola☐ Low Raw Water F	ant Temp. Ilow	High Engine C	Engine RPM at Full Load Engine Oil Pressure at Fu Engine Coolant Temperat Engine Damper Temperat Alarm V Coolant Temp. ter Temp	Engine Full Load Inspection Il Load ure at Full Load ure at Full Load /erifications Low Oil Pressure Alternate ECM I Checks	Over Speed Shutdown ECM Warning & Failure	
Low Engine Coola Low Raw Water F	ant Temp. Ilow	High Engine C	Engine RPM at Full Load Engine Oil Pressure at Fu Engine Coolant Temperat Engine Damper Temperat Alarm V Coolant Temp. ter Temp	Engine Full Load Inspection Il Load ure at Full Load ure at Full Load /erifications Low Oil Pressure Alternate ECM I Checks	Over Speed Shutdown ECM Warning & Failure	
Low Engine Coola Low Raw Water F	ant Temp. Ilow	High Engine C	Engine RPM at Full Load Engine Oil Pressure at Fu Engine Coolant Temperat Engine Damper Temperat Alarm \(\) Coolant Temp. ter Temp	Engine Full Load Inspection Il Load ure at Full Load ure at Full Load /erifications Low Oil Pressure Alternate ECM I Checks	Over Speed Shutdown ECM Warning & Failure	
Low Engine Coola Low Raw Water F	ant Temp. low ector Switch in Au	High Engine C	Engine RPM at Full Load Engine Oil Pressure at Fu Engine Coolant Temperat Engine Damper Temperat Alarm \(\) Coolant Temp. ter Temp	Engine Full Load Inspection Il Load ure at Full Load ure at Full Load /erifications Low Oil Pressure Alternate ECM I Checks Cooling Loop Manual Valves	Over Speed Shutdown ECM Warning & Failure	
☐ Low Engine Coola ☐ Low Raw Water F ☐ Clean Y-Strainer ☐ Engine Mode Sele Final Hour Meter Readin	ant Temp. low ector Switch in Au	High Engine C	Engine RPM at Full Load Engine Oil Pressure at Fu Engine Coolant Temperat Engine Damper Temperat Alarm \(\) Coolant Temp. ter Temp	Engine Full Load Inspection Il Load ure at Full Load ure at Full Load /erifications Low Oil Pressure Alternate ECM I Checks Cooling Loop Manual Valves	Over Speed Shutdown ECM Warning & Failure	
Low Engine Coola Low Raw Water F Clean Y-Strainer Engine Mode Sele Final Hour Meter Readin Work Performed by:	ant Temp. low ector Switch in Au	High Engine C	Engine RPM at Full Load Engine Oil Pressure at Fu Engine Coolant Temperat Engine Damper Temperat Alarm \(\) Coolant Temp. ter Temp	Engine Full Load Inspection Il Load ure at Full Load ure at Full Load /erifications Low Oil Pressure Alternate ECM I Checks Cooling Loop Manual Valves	Over Speed Shutdown ECM Warning & Failure	
☐ Low Engine Coola ☐ Low Raw Water F ☐ Clean Y-Strainer ☐ Engine Mode Sele Final Hour Meter Readin	ant Temp. low ector Switch in Au	High Engine C	Engine RPM at Full Load Engine Oil Pressure at Fu Engine Coolant Temperat Engine Damper Temperat Alarm \(\) Coolant Temp. ter Temp	Engine Full Load Inspection Il Load ure at Full Load ure at Full Load /erifications Low Oil Pressure Alternate ECM I Checks Cooling Loop Manual Valves	Over Speed Shutdown ECM Warning & Failure
